Component contrasts, sorted by effect size within each dataset
MedQuAD
iCliniq-style
Retrieval (k=3) vs. none, N=5 combined
Candidate budget N=5 vs. N=1 (no retrieval)
Unsummarised vs. summarised exemplars
Question-type retrieval vs. dense retrieval
Candidate budget N=5 vs. N=1 (retrieval)
Entity decoding (γ=1) vs. none, first beam
Entity decoding + reranking vs. reranking
Contrastive stage vs. none (retrieval, combined)
Contrastive stage vs. none (no retr., combined)
Verifier selection vs. first beam
Combined reranking vs. first beam
Entity decoding, no retrieval, first beam
Entity reranking vs. first beam
